Fun Family Movie Night!

Monday - Task 1

- You have been given the task of planning and organising a family movie night!

- Have a chat with your family and think of around 3 options for films you might like to watch together

Planning Movie Night

- Choose some movies (ideally 3) in your house that you think your family would enjoy.

- Create a <u>survey</u> to find out which one people want to watch. Use tally marks to find the film with the highest number of votes. The most popular can be your chosen film!

Advertise Your Movie

- Create a poster advertising your movie night
- Think about what makes a good eye-catching poster: colourful, bold lettering, pictures.
  (You can be as creative as you like!)
- Consider how long your movie lasts - ask an adult to help you pick an appropriate time.
- Make sure that you have put on the date, time and location of the movie (for example, "Friday 22nd May at 6:30pm in The Swanson Living room"!)
- Display your poster in the house so that your customers will see it!

Movie Tickets

- Make movie tickets for your customers (your family!).

- Remember to add the title of the film and the time it will start. Are your tickets free or will your customers have to pay? Maybe they could buy the tickets from your shop or you could make a box office (remember not to make the tickets too expensive).

Snacks and Room Prep!

Thursday

- Think about snacks you have at home. What will you be able to offer?
- Make a menu to show snacks available for movie night.
- Where are you holding your movie night? Are there enough seats?
- Is it nice, dark and cosy?

It's Movie Night!

- Allow your family to select snacks and collect them from your menu.
- Can you darken the room?
- Collect the tickets from your customers as they enter the cinema.
- Show your family to their seats (if you have a torch even better!). Check your guests are comfortable and introduce the film.
- Then snuggle up together and enjoy a lovely family movie night!
